Change Description:

The AWK-3191 and its 900-MHz antennas will be phased out because certain components in the AWK-3191 have reached their end-of-life date. There is no replacement available in the near future for this 900-MHz solution. As an alternative Wi-Fi solution, you may consider the AWK-3131A. The AWK-3131A has the same form factor as the AWK-3191 but operates in the 2.4/5 G frequency band.
