Life cycle notification #67
Last Time Buy for BRD-355

Part number	Sales part description	Last order date	Last shipment date	Replaced by, part number	Replacement part description
3623-0311	BRD-355	2021-03-31	2021-04-30	3623-0320 3623-0330 3623-0340	BRD-355A BRD-355B BRD-355A-AU

As a result of component shortages and technical obstacles that could not be resolved with the current design, the BRD-355 has been revised and are replaced by three new versions of the product, the BRD-355A, BRD-355A-AU and the BRD-355B

The new products takes a different approach on handling the challenges of the xDSL technology, using separate products to target specific regions instead of one product fits all. The new products all have the same functionality apart from the supporting different ADSL annexes. The BRD-355A versions supports annex A/L/M, making it suitable for most regions of the world. The BRD-355B version support annex B/J, which is used in Germany and partially in other regions. The BRD-355A-AU is a version of the BRD-355A that has specific approvals for the Australian market.

A limited number of BRD-355 units are available for sale, but once they are sold the BRD-355A or BRD-355B will be offered instead, depending on the region of the customer.

The transfer to Limited takes place at the last order date.
