

Product Change Notification—PCN# **PCN000866**

February 25, 2022

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to the OnCell 3120-LTE-1-EU Series to secure better component supply for shortening the product delivery time. These changes will be implemented by April 01, 2022. Please review the details below to determine how these changes will affect your products and/or operations.

What will change?

Due to the shortage of cellular module used by the OnCell 3120-LTE-1-EU Series, new module will replace the old modules on new version. The product revisions will be changed from revision 1.0.0 to revision 2.0.0, printed on the product's side label.

Two differences between product revision 1.0.0 and revision 2.0.0:

- New modules cover more LTE bands
- The two firmware images and configuration are incompatible (The software functions are identical)

Product Revision	Cellular Module	LTE Band	Firmware V1.x	Firmware V2.x
1.0.0	Thales ELS61-E R2	B1, B3, B8, B20, B28	V	X
2.0.0	Telit L910C1-EU	B1, B3, B7, B8, B20, B28A	X	V

Which products will be affected?

Product Name	Current Revision	New Revision
OnCell 3120-LTE-1-EU	1.0.0	2.0.0
OnCell 3120-LTE-1-EU-T	1.0.0	2.0.0

When will the new versions be available?

The new versions will be supplied right after the inventory of product revision 1.0.0 run out.

Product Name	New Revision	Available for Order
OnCell 3120-LTE-1-EU	2.0.0	2022/4/1
OnCell 3120-LTE-1-EU-T	2.0.0	2022/4/1
